

Great States!

Our new line of decorated state shapes. Each "map yellow" magnet is made from a thick silhouette with its name laser engraved, and the capital marked by a *Swarovski* crystal.

See our website for pictures of all 50 states, more on page 5.

New SKUs!

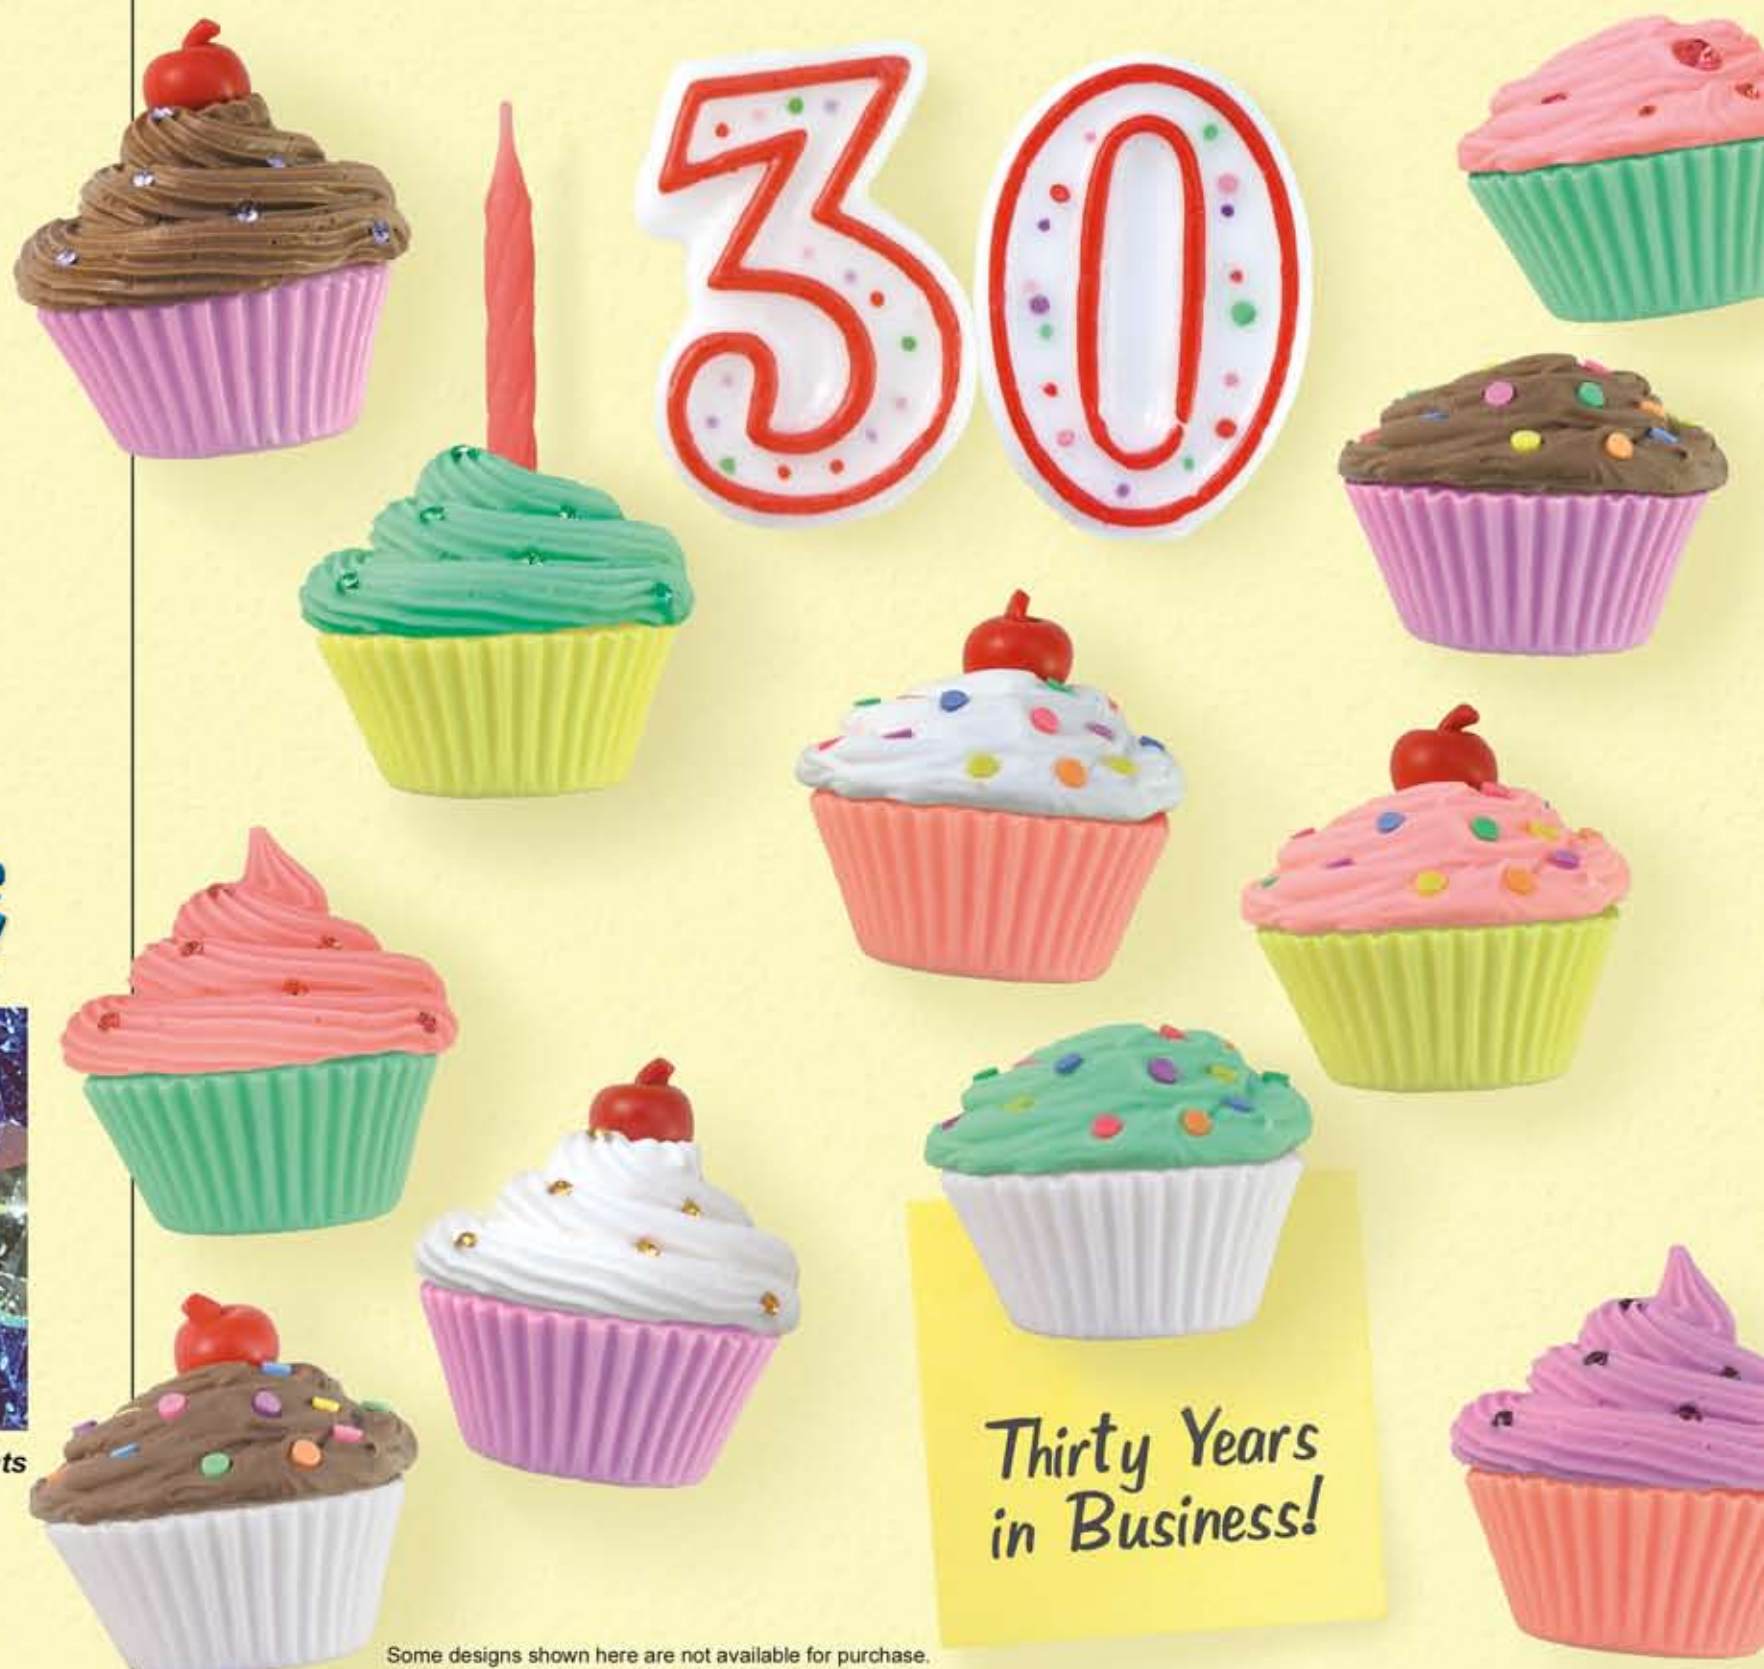

Easier to type all numeric SKUs are same as UPC's, for example: 50286.

Our regular name-dropping service is not available for the Great States line. Items are only laser engraved with the state's name.

CLAY CRITTERS®

MAGNETS • KEYCHAINS • ORNAMENTS

Thirty Years in Business!

Some designs shown here are not available for purchase.

Handmade in the USA!

We use **CRYSTALLIZED™ - Swarovski Elements** on all of our jeweled items. UPC barcoding and name-dropping are free retailer services. Call for more information.

Displays are vital to effective merchandising. We make our own displays and offset their purchase. See the order form for details.
