1. All items barcoded with a single UPC. Useful if you retail all our items at one price. This is our preference, too.
 2. Items barcoded with one of two UPC barcodes matching our two price points. Useful if you price magnets differently from keychains and ornaments.
 3. Individual barcoding for each style ordered. Useful for inventory control. Please, only request this option if you really need it, it is more expensive for us, and a delay for you.

NEW ITEMS are added regularly; please check CLAYCRITTERS.com for pictures and description.
